

MANAGED THREAT PREVENTION, DETECTION & RESPONSE SERVICES

For over 20 years we've been protecting the world's most valuable information

With today's complex cyber security challenges, organisations require comprehensive incident response capabilities securing data centers, corporate infrastructure and work from home environments. The need for modern security solutions has never been greater.

C8 Secure's multi-layered threat prevention, detection & response solutions are designed with tomorrow's security needs in mind, offering the most complete end-to-end protection from the edge through endpoint & cloud.

- Over one-third of organizations worldwide have experienced a ransomware attack or breach in the previous 12 months
- The average cost of a data breach is \$3.86 million as of 2020
- The average time to identify a breach in 2020 was 207 days
- Only 4% of alerts actually investigated

ASK YOURSELF THE FOLLOWING QUESTIONS:

WHAT AM I MISSING?

HAVE I BEEN EXPOSED?

AM I CURRENTLY BREACHED?

SECURITY SERVICES

EDR

Military-grade endpoint protection against advanced malware, ransomware and phishing threats.

MDR

24/7 security monitoring, detection and actionable response across your entire enterprise and cloud environments.

SOC

Highly trained US-based security experts working vigilantly to keep your organisation safe from threats.

DDoS

Comprehensive perimeter network mitigation against DDoS attacks.

MANAGED SIEM

Enterprise wide event collection, correlation, enrichment and analysis to pinpoint and respond to security events.

THREAT EX

Billions of security intelligence data points correlated and analysed each day fully integrated into our layered threat prevention solutions.

WAF

Layered protection around your web applications and APIs against OWASP threats.

WE UNDERSTAND THE ISSUES THAT PUT ENTERPRISE AT RISK

- Disconnect between Governance, Policy Controls and IT Environment
- Lack of integration within existing solutions
- Limited or no visibility into endpoint state and remote activities
- Existing solutions lacks features suited for the next generation of cyber attacks
- Ineffective 24x7 Continuous Security Monitoring

OUR SECURITY SERVICES TURN INSIGHTS INTO BUSINESS VALUE

REDUCE COSTS

DETECT & RESPOND FASTER

FOCUS TEAM ON WHAT MATTERS

DISCOVER UNKNOWN THREATS

QUICKLY ADAPT TO CHANGING THREAT LANDSCAPE

ACHIEVE COMPLIANCE

SITUATIONAL AWARENESS, DASHBOARDS & REPORTING

VISIBILITY INTO ANY DATA SOURCE, ANYWHERE...

- IT & SECURITY DEVICES
- APPLICATIONS
- 3RD PARTY CLOUD SERVICES
- NETWORK APPLIANCES
- SERVERS / VMS
- REMOTE ENDPOINTS
- AGENT / AGENTLESS OPTIONS
- DATA MASKING CAPABILITIES

WHY C8 SECURE?

- **Comprehensive Multi-Layered Solution** Focused on threat prevention versus detection.
- **20 Years' Experience** Protecting customers in highly regulated industries, certified as a service provider in multiple Jurisdictions.
- **Industry Recognized & Proven Leadership** team with over 100 years' experience in Managed Security Services.
- **High-Touch Boutique Service** Providing personalized attention.
- **Global Reach** With over 70 connected locations across 11 countries and 3 continents.
